Dave, this is an allowed case of yours. Could you please handle the certificate of correction as requested below.

Thanks

Please respond to the PTOL-306 (IMIS) document, in the application images for the above-identified application in eDan/MADRAS dated 03/15/08.

Your response is needed, as to whether the changes requested in the Request for Certificate of Correction and on the SB/44 or PTOL-1050 forms (COCIN) document, should be made.

After you have printed the IMIS document and noted your response on the IMIS document, please forward your response for scanning into the application images, as a COCX document.

Your assistance is very much appreciated.

Thank you for your attention directed to this matter.
